

# Help your child join their Google Classroom on a computer

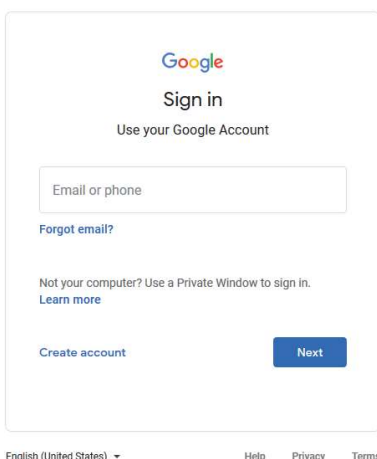

Use the following link:

[https://edu.google.com/int-en\\_uk/products/classroom/](https://edu.google.com/int/en_uk/products/classroom/)

and then click  
"Go to Google Classroom"

Be careful here: You need to log out and log in with your child's account. These have been set up by school.

Click on the create an New Google Account Using our log in options as on page two.

This is essential as we need to be able to identify each child in the classroom for their safety. Only these details will work - we know this may not be your child's "home" google account - but it is their school one.

All the children's accounts have the same format.

**EMAIL:** firstname of your child first initial of surname @penningtonjunior.co.uk

for example Charlie Smith would be

**charlies@penningtonjunior.co.uk**

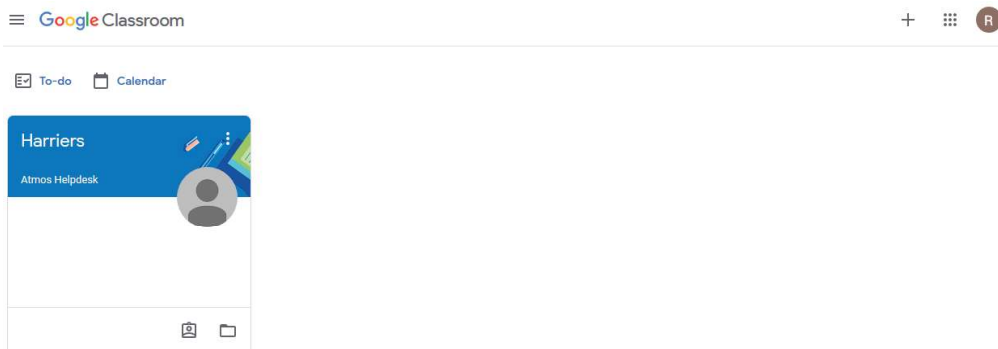

On the next screen you need your child's password;

**Password:** first name followed by date of Birth as 6 digits

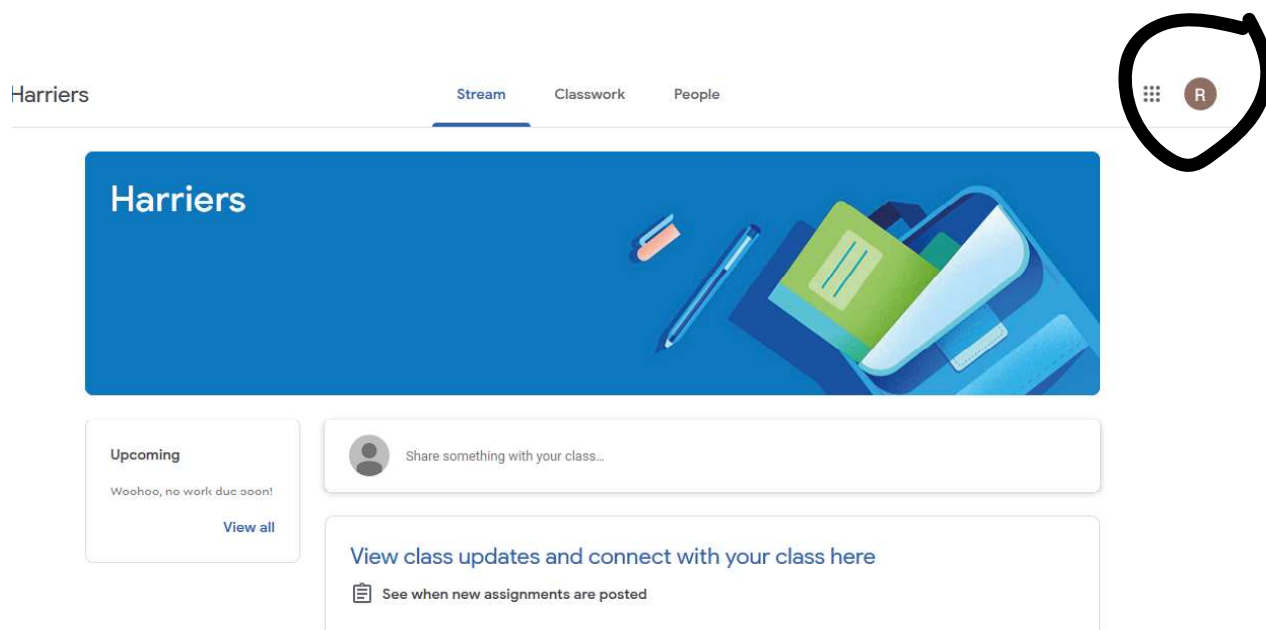

For example Charlie birthday is on the 2nd May and he was born in 2012

**charlie020512**

**Please do not change these details as we need access in school too!**

You should now see your child's class like the example above. Please click on it.

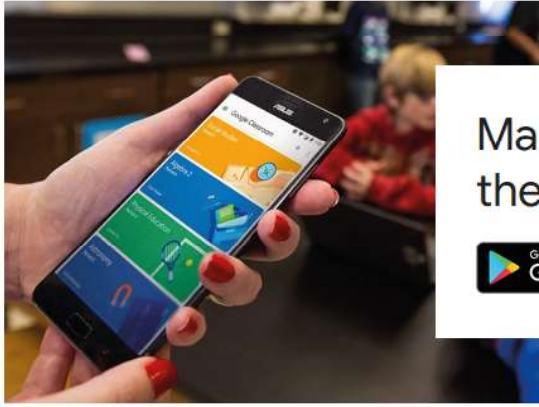

You can now see the classroom specific to your child - view any updates and access classwork.

Next time you log in - it will be easier - just make sure you are logged in in your child's account.  
You can check in the top right corner

 **Be The Best You Can Be!** 

Thank you for Being the Best Parent you can be and helping your child get online to the Google Classroom at home!
